DiCon’s RS-232 Cable Assembly Kit is comprised of a ribbon cable, AC power adapter, RS-232 cable. The 16 pin ribbon cable interfaces the 16 pin Molex connector on with either the switch module or the control board. The other end of the cable splits the power and RS-232 controls lines between the AC adapter, which supplies 12 VDC to the device and the female DB9 connector for RS-232 control lines.
RS-232 CABLE ASSEMBLY KIT

CABLE ASSEMBLY KIT INCLUDES
- 16 Pin Male Molex Connector (87568-1694)
- Universal AC Power Adapter
- RS-232 Cable with Female DB9 Connector

DC Voltage Requirement

| 12 | 12 VDC | Switches and tunable filters |
| 5  | 5 VDC  | MEMS VOA, DPE or tap detector module |

Product Type

- MSM: MEMS Switch Module
  - Size 2, 3 or 5 with RS-232 control
- 3D: MEMS 3D Matrix Switch Module
  - Part numbers starting with MN4, MN6 or MN8 with RS-232 control
- MTF: MEMS Tunable Filter
  - With control or evaluation board
- DPE: DPE, MEMS VOA, Tap Detector Module
  - 5 VDC modules based on the DPE board
  - (Part number starting with: MA, ME, MD, TDE)
- VX: VX Stepper Motor Switch Module
  - VX 1xN or 2xN modules with RS-232 control

AC Adapter Plug Type

- AU: AU Type
- EU: EU Type
- UK: UK Type
- US: US Type
